### Current Tech Stack

### Experience

#### Web Developer

March 2023 - Current

Inova.dev ( Freelance ) - Remote

##### End-to-End Project Management

- From start to finish, I harmonize project lifecycles—whether it's a portfolio or an e-commerce platform.

**Code Symphony:** I write clean and elegant code, focusing on readability for easy maintenance.

##### Client Relations and Satisfaction

- I build more than websites—I create relationships, tailoring each project to the user's vision. Going above and beyond is my forte!

##### Consultation and Problem Solving

- I curate project architecture and solutions by distilling requirements through my in-depth grasp of today's most cutting-edge, scale-able and versatile competitive technologies.

**Debugging detective:** I can hunt down elusive bugs like a seasoned tracker, leaving no errors unexamined.

##### Product Delivery with Pizzazz

- My favorite part! I love seeing others enjoy my creations as much as I love building them!
